\$4.88B

reported lost to fraud by Americans 60 and over
in 2024 (FBI IC3)

\$12.5B

reported lost to fraud by US consumers
in 2024, up 25% (FTC)

Sources: FBI Internet Crime Complaint Center 2024 report; FTC Consumer Sentinel 2024.

MOM, DON'T CLICK

Parents won't install an app.

They already know how to forward.

So the whole product is an address. No app, no account, no setup.

THE ENTIRE ONBOARDING

momdontclick@agentmail.to

Forward it. We click it. One sentence back

Fwd: Your parcel is being held

momdontclick@agentmail.to

1

Mom forwards it

By email, by pasting a link, or as a screenshot.

Name on card
[input field]
ASKS FOR: CARD NUMBER
[input field: 0000 0000 0000 0000]
ASKS FOR: CARD EXPIRY DATE [input field: MM/YY] ASKS FOR: CARD SECURITY CODE [input field: 123]
PAY \$1.99

2

A throwaway browser opens the link

Far from her computer. It watches what the page asks for.

Official site

EXA

Scam reports

EXA

Age of address

RDAP

3

The claims get checked

The official site, scam reports, the age of the address.

4

One giant sentence

In words a 75-year-old can act on.

And if it was a scam, you get: **"Mom was sent a parcel scam. She did not click. Handled."**

SANDBOX BROWSER

Step 2 asks for your card number and card security code

SANDBOX BROWSER

read-message Reader (rules)

recall Postgres

open-link Sandbox browser

check-claims Known sites

check-address RDAP

A real browser walks into the page so nobody else has to.

MOM FORWARDED: Your parcel is being held - action required

SCAM

Do not click. Carriers never ask for a card number by email.

01 The page asks for your password

02 Step 2 asks for your card number

03 No real company called ParcelFast exists

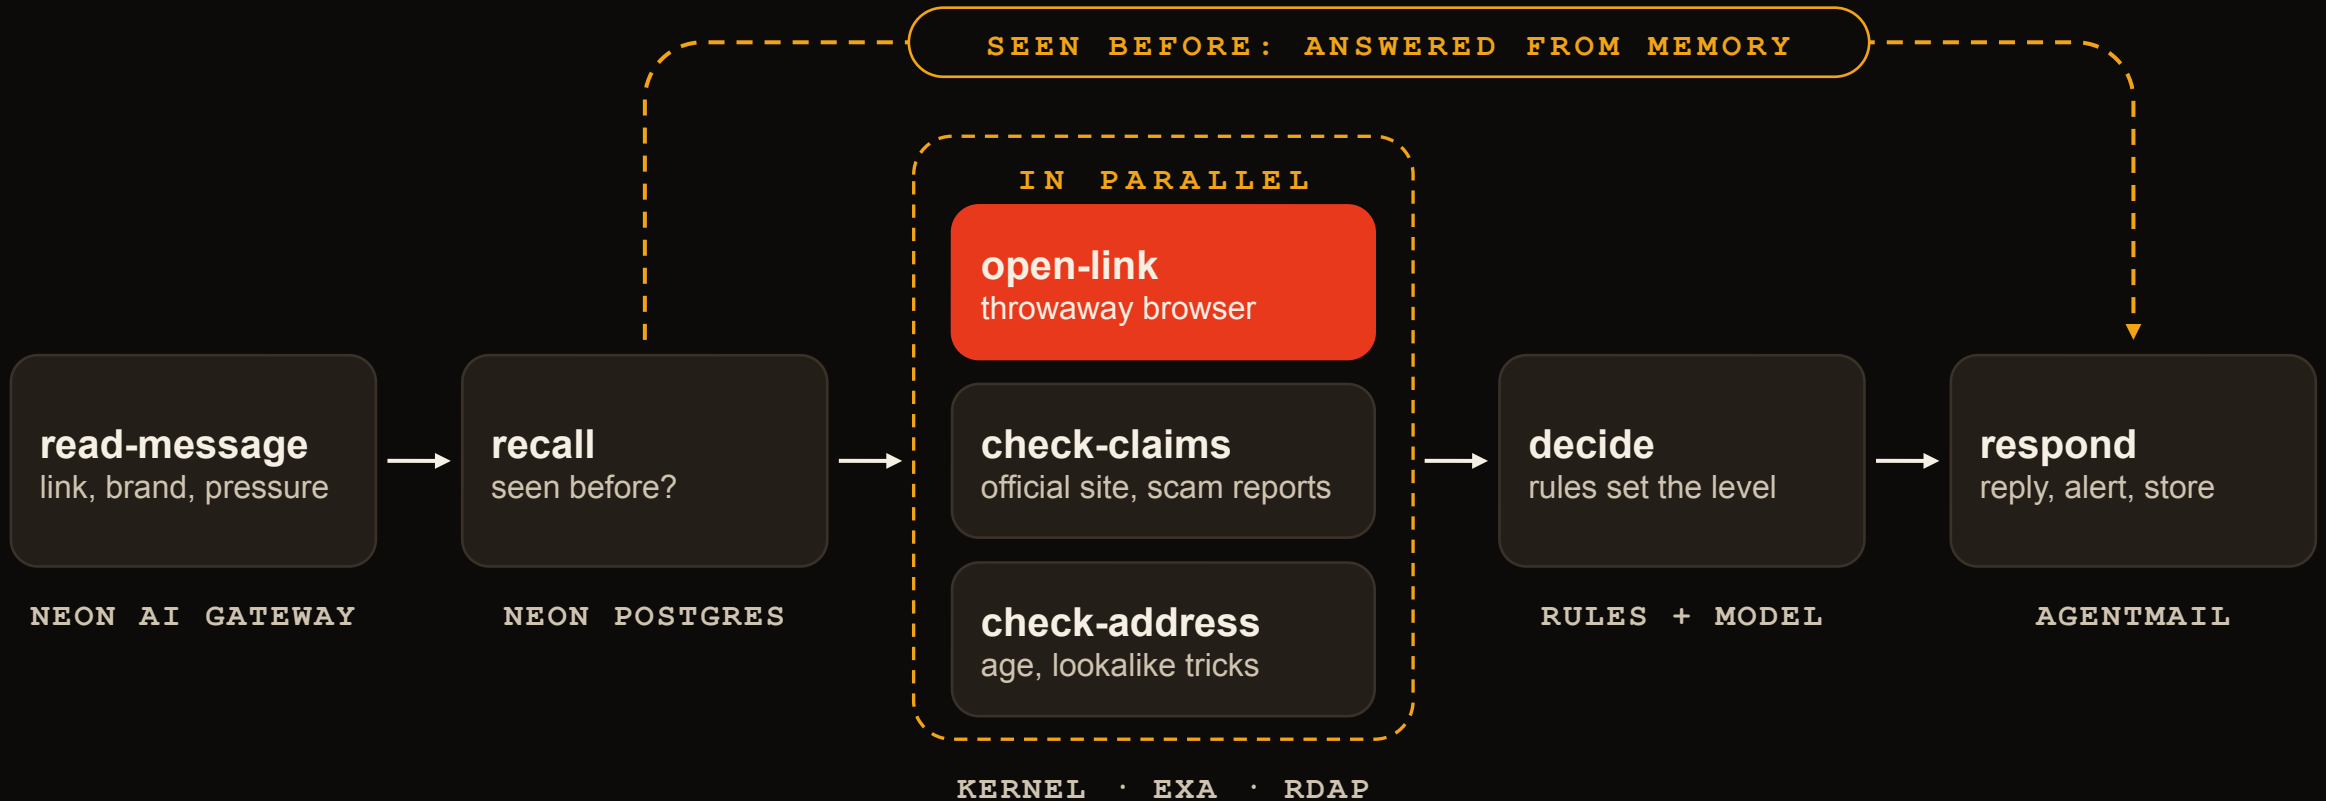

THREE ANSWERS. NEVER THE WORD SAFE.

SCAM

TREAT AS A SCAM

NO RED FLAGS FOUND

One workflow, three branches in parallel

Rules decide the level. The model only writes the sentence.

Remove any one tool and it stops working

AgentMail

The forwardable address.
Replies, alerts, follow-ups.

Kernel

The throwaway browser
that clicks so mom
never does.

Exa

Finds the brand's real site
and existing scam reports.

Mastra

The parallel workflow, with
every step traced.

Neon

Case memory in Postgres.
AI Gateway for every
model call.

Fly.io

One always-on machine:
app, inbox poller,
live stream.

assistant-ui

The follow-up conversation
on every case.

Runs with zero keys

Every tier has a local
fallback.

Built to fail in one direction

Rules decide, the model writes

A scam email cannot talk the verdict down.

It looks. It never types.

Fake details go into one place only:
our own training pages.

A dead link is evidence

Hidden, blocked or taken down
means treat as a scam.

Shared screens get less

Only a cleaned-up subject line
reaches the wall.

THE HONEST SCORE

12 / 12

labelled messages judged
correctly (8 scams, 4 genuine)

A REGRESSION CHECK,
NOT A BENCHMARK

Mom forwards. It clicks. You only hear about it when it matters.

WHO PAYS

The adult child, a few dollars a month per parent.

NEXT

A phone number for texts

A family dashboard

Shared memory across families

github.com/vnmoorthy/mom-dont-click

 Mom, Don't Click ↔ Check

FOR THE GROWN-UP KIDS

Be the first to know.
Without being the help desk.

When a scam reaches someone you love,
we check it for them and send you one
short note. That is all.

Your email

What do you call them?

Mom

Dad

Grandma

Grandpa

Their email address optional

Leave this empty to try it with our demo Mom.
